Dear Sir,

Thanking you for your kind remnant,
I beg to inform you that up-to-now I
did not issue catalogues of coins but
I have the pleasure to dedicate you for
your library copies of some of my
scientific papers about ancient coins, if
you will agree them. They follow by printed-
matter.

I beg to remain, dear Sir,

Dear Mrs Baldwin,
Encouraged by Mr. Edward
T. Newell I beg to ask you
for kindly sending me a copy
of your valuable monograph:
Five Roman Gold Medallions, as
well as your other publications,
which I think to announce in
the "Berliner Mittheilungen".
I am sending you my recension

of Mr. Newell's Octobols of Kishiaca
and Alexander Goards in this journal.
Of my own small ^{earlier} numismatic papers
I even could transmit you the
"Tetradrachmenprägung von Segesta",
if you like.

Should it be possible to
you to induce Mr. Sydney F. Noe,
your editor, (I also owe his address
to Mr. Newell) send me regularly
copies of all publications of the
American Numism. Society, I should
be very obliged to you indeed.

With the unfortunate change, we
cannot here buy American scientific
papers.

Advancing deep thanks for all
you can do in this matter, I beg
to remain
very sincerely yours
Th. Lederer

Dear Sir:-

Mrs. Brett has referred your letter of January 6th to me. You will recall that you proposed an exchange between our Society and the "Berliner Münzblätter". We lack of this periodical Nos. 170 and 172 to date. I should be very glad to send you the back numbers of our Numismatic Notes & Monographs if you consider this would be a fair exchange and future numbers of our publications could then be sent you regularly. On receipt of your reply I will be governed accordingly.

Very truly yours,

Secretary.

Dear Sir, Please excuse the long delay in answering to your kind letter of 16th febr., caused by my longer absence of Berlin. In the mean time I had the very great pleasure to see here my friend Mr. Tenell. I have given your address to the Editor of the "Berliner Museumblätter" Dr. Emil Batfeldt, he will have sent you already all the numbers wanted. From own monographs I only even dispose of my "Tetradactylus preegung von Seged" which I beg to transmit you, and I shall be very pleased to send you copies of coming articles. I should be very obliged to you for transmitting me your valuable paper on "Boards" in the series of Numism. Notes and Monogr. and future publications.

With best thanks for all your favours
I remain
very truly yours

Dear Dr. Lederer:

At Mr. Newell's suggestion, I am writing to ask whether you know of any specimens of the tetradrachms of Mende which have got into private collections in Germany from the hoard which Dr. Regling and M. Babeion discussed. I think it very possible that Herr Giesicke may have seen some of these pieces.

The reason for my asking your kind offices is because I am anxious to locate as many of the specimens as possible for the muling of dies makes each coin of great importance in the evolution of the series. I now have records of well over two hundred of the pieces, and would greatly appreciate anything that you may be in a position to do to help me.

Very truly yours,

Secretary

P.S. Can you give me the name of the ^{Director of the} Pesth National Museum. I wish to ask him one or two questions about hoards which are there.

Dear Dr. Lederer:

Thank you very much for the reprints which you have so kindly sent me, as well as for the very pleasing review of my Bibliography of Greek Coin Hoards. Such appreciation as this helps to repay for the time and effort which went into the preparation of the publication. Just as praise from those who realize what a saving of time will be effected, carries greater weight.

Again thanking you, I am,

Very cordially yours,
